

**REMARKS**

Claims 1-16, 31, and 32 are all the claims pending in the application. Applicant has cancelled claims 17-28 from further consideration in this application. Applicant is not conceding that the subject matter encompassed by claims 17-28, prior to this Amendment is not patentable over the art cited by the Examiner. Claims 17-28 were cancelled in this Amendment solely to separate method and non-method claims to facilitate expeditious prosecution of the subject matter of this Application. Applicant respectfully reserves the right to pursue claims, including the subject matter encompassed by claims 17-28, as presented prior to this Amendment and additional claims in one or more continuing applications. In addition to the cancellation of claims 17-28 as discussed above, Applicant has also amended the "Title of Invention" and "Summary of Invention" to more accurately reflect the scope of the claims currently pending in this Application.

If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
